Aims and Goals

I was elected to the EBL Executive Committee in Tenerife 2001. It took some years to learn all the procedures within the board, which clearly not always is as I'm used to from the nordic point of view. It has been very interesting and stimulating to work in the Executive board for the EBL.

I had two personal aims for this period in the Executive. The first is to continue the technological development for our tournaments. A lot has happened during the last years with our scoring systems, bridge mates, vugraph etc. But I don't think we have seen nothing yet.

The second is to work with the junior recruitment. To secure the future for bridge it is essential that we can get more juniors in bridge on all levels.

Conclusion

I'm a person with a wealth of ideas and my strengths combined with this are organising, planning and structuring. I'm responsible and normally does what I promise to do.
